Subject: E-Rare-3 Call for proposals 2016 for "Clinical research for new therapeutic uses of already existing molecules (repurposing) in rare diseases": HyperMaz)

Dear dr. Mayer, EUNN,

The (Stichting) European Narcolepsy Platform supports the *E-Rare-3 Call for proposals 2016 for "Clinical research for new therapeutic uses of already existing molecules (repurposing) in rare diseases": HyperMaz*).

We like to state that we support this research project because it could be beneficial for narcolepsy patients in Europe.

Disclaimer: The European Narcolepsy Platform lacks the right medical knowledge to judge the medical implications of this research. The European Narcolepsy Platform therefore takes no responsibility for possible negative outcomes or adverse reactions on people during clinical testing or when prescribed after approval by the EMA.

With kind regards,

Roel de Boer
President European Narcolepsy Platform
